| Deck, Dock or Pier | 43 Total Observations | |
| Residence | 67 Total Observations | |

Total shoreline for Grindstone Lake equals 12.46 miles

Data Sources

Visible structure field inventories conducted by citizen volunteers from the Grindstone Lake area in conjunction with the UW-Stevens Point GIS Center, Summer 2010. The inventory was conducted by boat in the littoral zone of Grindstone Lake during full leaf-on tree canopy conditions. Only structures visible to the naked eye were documented. Locations of structures were affixed to large-format hard copy maps and assigned a personal identification number. Attributes indicating type of structure, were recorded in a log book. Hard-copy maps were scanned, georeferenced to the Sawyer County Coordinate System, and digitized to the Grindstone Lake geodatabase by Jon Galloy and Michael Broton, UW-Stevens Point GIS Center.
