

GRINDSTONE LAKE FOUNDATION

The Grindstone Lake Foundation (the Foundation) was founded for the purpose of acquiring and rehabilitating a 57-acre tract of land—comprised predominantly of a cranberry bog—on the Grindstone Lake shoreland in Sawyer County, Wisconsin

MISSION

The mission of the Foundation is to steward the protection, restoration, and preservation of the tract to wetlands and create a community-supported nature area that is publicly accessible to Grindstone Lake residents and visitors.

A PLACE ABUNDANT

As stewards of this vital tract of land and Grindstone Lake, we seek to:

- Protect the quality and clarity of Grindstone Lake waters
- Protect Grindstone Lake land
- Restore the tract of land from cranberry bog to its original wetlands state
- Preserve the lake's natural ecosystem
- Protect native aquatic plants and animals from the adverse effects of the former bog
- Inform residents and visitors of restoration efforts and ways to get involved
- Ensure public access to the land
- Create educational and eco-recreational opportunities
- Educate visitors on the history of the site and the impact of commercial bogs
- Improve and enhance the surrounding community
